

In T2DM patients, anemia tied to diabetic retinopathy

30 October 2019

(HealthDay)—In patients with type 2 diabetes mellitus, anemia is associated with the development of diabetic retinopathy, according to a study published in the October issue of *Medicine*.

Jin Ook Chung, M.D., Ph.D., from Chonnam National University in Gwangju, South Korea, and colleagues evaluated the association between anemia (hemoglobin level
